

# TREK, INC. Capabilities Statement

**Mailing Address:**

**TREK, INC.**  
 190 Walnut St  
 Lockport, New York 14094 USA  
 www.trekinc.com  
 1-800-FOR-TREK (1-800-367-8735)

**Cage Code:**

57798

**NAICS:**

334515  
 334516  
 334519  
 335999

**FSC:**

5996  
 6625

**DUNS:**

05-995-9932

**Certifications**

ISO 9001: 2008  
 CCR Registered  
 ORCA  
 ITAR  
 ATEX

**Contact:**

Brian Carmer  
 Customer Service Manager  
 (716) 438-7555

**Company Profile:**

Located in Upstate New York since 1968, Trek manufactures high voltage amplifiers, piezo drivers, power supplies, e-chuck supplies, and function generators for demanding applications. The company also makes electrostatic measurement instruments for high performance applications; products include electrostatic voltmeters as well as electrostatic sensors and detectors, charged plate monitors, surface resistance/resistivity meters and ionizers for electrostatic discharge (ESD) applications. Trek products are used in electrophotography, ESD, piezoelectronics, semiconductor equipment and a wide variety of R&D applications.

Trek high voltage amplifiers feature exceptional DC stability and excellent wideband performance enabling generation of precise waveforms to drive capacitive loads, thereby enhancing the precision and performance of multi-million dollar OEM equipment as well as lab-scale research endeavors.

Trek products for electrostatic measurement enable development or enhancement of electrostatic-controlled equipment & systems, or improved management of electrostatic-sensitive processes & environments, resulting in increased quality, productivity or innovation for the user.

**Small Business:** Trek is a small business as defined by the Small Business Administration.

**Affirmative Action:** Trek has developed and has on file affirmative action programs required by the rules and regulations of the Secretary of Labor.

**RoHS, WEEE, REACH:** Trek is in the process of complying with these initiatives but is exempt in some cases. Please go to <http://www.trekinc.com/library/RoHS.asp> for more information.

**Facilities & Equipment:**

Lockport, NY:  
 Main Office, Sales & Marketing, Accounting  
 Manufacturing, Shipping/Receiving  
 58,000 sq. ft.  
 High-voltage handling capabilities

TORRENT EMS  
 Contract Electronic Manufacturing Services  
 (relocated to Lockport from Orchard Park mid 2015)

Technology Center  
 Research & Development, Design Engineering  
 12,000 sq. ft.  
 Extensive design and test capabilities

**Expertise:**

Extensive application knowledge  
 Experts in electrostatics  
 Proprietary technology offers innovative solutions  
 Established track record of long-term relationships  
 Calibration and repair services  
 Innovative probes enhance the utility of our electrostatic voltmeters  
 Custom OEM products represent a significant portion of our business  
 For detailed custom OEM product and core competencies information please visit:
